Re: Mandatory Water Meter Replacement Project

Dear Homeowner or Resident,

The Township of Freehold has contracted with Saks Metering to conduct an area-wide water meter upgrade project. Authorized installers from Saks Metering will be working in the community, with photo identification, car signs and company uniforms to perform this important project. Typically, the upgrade of your water meter should take no more than an hour to complete. In most cases, your water meter is located inside your home, basement or crawl space. You may experience a temporary water disruption.

This water meter upgrade is mandatory and is required for the Township to meet NJDEP water supply regulations now, and in the future.

Please make an appointment with Saks Metering. There are three ways that you can accomplish this:

- 1. You may visit their website at www.saksmetering.com and click on "Make an Appointment,"**
- 2. You may e-mail Saks Metering at info@saksmetering.com using the subject line "Freehold Township Meter Replacement", or**
- 3. You may call their office at 732-730-5633 and set your appointment over the phone.**

Our contractor will make every effort to accommodate your schedule, and will expeditiously complete your meter upgrade.

Should you have any questions or concerns regarding this project, don't hesitate to contact the Township Utilities Department at the number provided below, or Saks Metering at the provided contacts above, at any time. We also urge you to visit the Contractor's website at <http://www.saksmetering.com> to view a FAQ video that will provide answers to many questions you may have.

We thank you, in advance, for your cooperation and apologize for any inconvenience.

Sincerely

Robert J. Koches
Superintendent of Utilities
